

DATA	5/14/2015
TO	CSS 422 Spring
From	Allon Kim (Three Muskateers)
Subject	Team progress report 3
Period	Wk2 (5/11/15 ~ 5/18/15)

Work Completed:

0. I/O done – List file attached
1. Completed OP code table. (all the way to 4th hex value) – Excel file attached
2. Constructed Logic for OP code determination (by grouping) + edge case (invalid input)

Problems:

0. Unexpected visitor(Pigeon) distracted meeting again.

Work Scheduled:

Weekly stand-up meeting: Monday 3:30 – 4:00

Regular Work Day: Tuesday, Thursday 10:00 – 1:00

0. Actual OP code coding (implementation)

Self Evaluation:

Cinnamon roll by Joel Richart was so good, and so were the fresh Strawberries that Allon provided.

We accomplished a lot of work this week. We were able to receive a starting and ending location from the user. Logically determined each possible Op-Code, and discussed ways to determine which opcode is stored at the location.
